

Dear People of the FCC,

I am writing to ask that you please do not replace my local FM station, K-LOVE, with an LPFM broadcast station. I found K-LOVE by chance while turning the radio dial and it has greatly and positively affected my spiritual life. Locally, the K-LOVE community is brought together via the music played on K-LOVE. We find each other at local events and concerts sponsored by K-LOVE. K-LOVE is the main source of finding such local activities and therefore it serves in the public interest. K-LOVE is listener supported and every pledge drive they meet their goal of support. This is proof that a large number of people locally listen to and enjoy K-LOVE. Please leave FM station 96.9 in Dayton as a K-LOVE broadcasting station.

Thank you for your consideration on this matter.

Sincerely,

Patricia L. Seligman
